

Update Meeting for Chief Sloly – 13 Feb 22 – 2:30 pm

P. Sloly
S. Bell
V. Nelson – notes for Chief
K. Burns – notes for MIC
J. Dunlop
T. Ferguson - MIC
C. Huneault
M. Patterson
J. Steinbachs
R. Lucas
K. Maloney
R. Drummond
J. Leblanc
D. Palmer
R. Bernier - IC

- Bernier – update – okay, lots of moving parts, little time to scramble together – working on action plans for egress (Hull) coming up with a plan so one group not dependent on another – planning team at Greenbank working on neighbourhood hardening plan – really has to do with original plan with the hardening of Wellington core
- Looking at early evening to have this done
- Standing up PLT – coordinating PLT, Traffic, POU and soft hats on how to manage this – keep in mind that groups may not be cooperative and may intervene
- Area from Elgin to Lyon (Control Zone) targeting planning for hardening our neighbourhood
- REDACTED
- Chief – need to know not going to lose our entire planning team – need to maintain our COVID requirements
- Are we going to be on news bringing gas in – trucks with wheels on, fueled up – need to enable this – thinking through the logistics
- Bernier – yes, we are thinking of all those challenges
- Chief – if we need more resources, need that today – rather go large than small, now than later
- Leblanc – getting more resources today, taking those resources, taking everything in – deployment will stay the same until footprint changes – everything fine right now
- Sloly – confirmation of numbers and really getting them clear – make sure we get this done by end of day so that number that Carson Pardy gives tonight is right– still a disconnect but trying to solve it
- Confirmed that all officers we have are being used

- Bernier will be tasking J. Kavanagh with respect to messaging from Chief
- Ferguson will send something that will help with messaging
